Eikon Technologies Ltd 428405 County Rd. 10, Amaranth, ON, CANADA, tel. +1 5199428893 www.eikontechnologies.ca

PRICE LIST

All prices are in US funds - Valid until Jan 1, 2027 Most Currencies accepted
Listed prices are for Perpetual licenses but Subscription licenses are available
Licenses included ONLINE training and support

EMIGMA XV Exploration Packages

full database platform allowing multiple surveys and large survey sizes

EMIGMA COMPLETE – *Airborne, Ground, Borehole,Marine* **$10,000**
For Magnetics, FDEM, TDEM, Gravity, IP, Resistivity, MMR, VLF, CSEM/CSAMT
Includes QCTool Basic plus Gravity & Magnetics tools

EMIGMA EM for Oil and Gas
EM and Magnetics Applications for airborne, ground, marine and borehole surveys **$12,000**
Including Natural fields and controlled source electromagnetics plus our magnetics tools
Including Land-Based CSEM
MT,ZTEM,AFMAG,MTEM,TEM,FEM,IP,Resistivity,CSAMT
Includes QCTool Basic plus Gravity & Magnetics tools

EMIGMA for Magnetics – *Airborne, Ground, Borehole* **$3,500**
2D FFT/DFT, 2D/3D Inversions, Weak and Strong Modelling, 3D Euler solutions
Includes QCTool Basic plus Advanced Magnetics tools

EMIGMA for GRAVITY – *Ground, Borehole applications* **$3,500**
2D FFT/DFT, 2D/3D modelling, 2D/3D Inversion, 3D Euler, Gravity Corrections
Includes QCTool Basic plus Advanced Gravity tools

EMIGMA for Marine Gravity and Magnetics **$8,000**
For processing, modeling and inversion of general marine potential field systems

EMIGMA Ground COMPLETE – *Ground Surveys*
IP/Resistivity, FDEM, TDEM, Magnetics, Gravity, CSEM/CSAMT **$8,000**
Includes QCTool Basic plus Gravity & Magnetics tools

EMIGMA for Land-Based CSEM and CSAMT **$3,500**
ground surveys, single or multiple grounded current sources, electric and/or magnetic field measurements
Includes QCTool Basic for raw data processing

EMIGMA for IP/Resistivity – *Ground* **$2,000**
PseudoSections, 3D Resistivity Inversion, 1D Inversion, 2D/3D modelling package

EMIGMA for IP/Resistivity *Borehole and Crosshole* **$4,000**
Surface, surface to borehole and crosshole applications
Forward Modelling, 1D and 3D resistivity inversion for multiple fields and transmitters

EMIGMA for MMR ***Surface and surface to borehole*** **$2,000**
Basic plus 3D modeling
Also available as add-on to EMIGMA for **IP/Resistivity**

PRICE LIST

All prices are in US $ - Valid until Jan 1, 2027

EMIGMA for TDEM – ***Ground, Borehole, Airborne*** **$5,500**

EMIGMA for TDEM – ***Ground, Borehole*** **$3,500**

Basic, 3D Modelling, 3D Plate Inversion,
Extensive 1D inversion capabilities including offset Tx-Rx configurations

EMIGMA for FDEM – ***Ground*** **$2,500**

Basic, 1D inversion, 3D modeling, 3D Plate Inversion

EMIGMA for FDEM – ***ground, borehole and airborne*** **$4,000**

Basic, with Pseudo-Depth imaging, 1D inversion, 3D modeling, 3D Plate Inversion

Academic Packages

Please contact us for academic prices

QCTool V6.5

QCTool V6.5 BASIC

Includes 1 year of email support and upgrades
Quality Control, Processing, extensive Filtering apps, very large survey sizes
Data station linked Spreadsheet, Plotter, Grids, Mapping
comprehensive GNSS tools …. And more

Add-on features

Gravity corrections, magnetic corrections, FFT/DFT tools

Aeromagnetic Compensation for drones, UAV, marine, helicopter and fixed wing

Basic Price - $250 USD/license for more details refer to www.qctool.ca

All above prices are in USD
Training is available on request.
Please request a quotation.
